

Sun. afternoon  
3 P.M.

Dear Mildred,

Well I'll try to write my regular Sun. letter. Mrs. Davis, Mary, and I went to Sunday school and church this morning. Mary went home after Sunday school. I just got through washing and fixing my hair. I guess I should have done it yesterday but I cleaned our rooms yesterday morning and washed clothes until about 1 o'clock and so I studied for the rest of the afternoon and night. I don't know when I'll iron clothes, I sure have a stack of it. I'll have to study for the rest of the day and night for our school Org. and Wgt. test tomorrow. I haven't really studied for teacher's exams yet, just looked over Katherine's questions a little. I don't think the spelling, reading, and writing will be so bad but I'll have to study for agriculture and geography pretty much. I can take Missouri History for an approved grade in civics. Katherine and I talked to Mr. Hayden the other day and he said so. I'll have to take spelling, reading, writing, and agriculture for sure but I'll have to take geography if I want to save the subject for corre-

64-51  
audience. Mr. Hayden said though that if I didn't have enough subjects left for correspondence he thought he could fix it up some way. You asked about our Hygiene class. Well, we had a surprise test last week Thursday and were it a scream. To be honest I didn't read my lessons half of the time <sup>I simply don't have time</sup> but if I had it wouldn't have done any good. He had names and words we never heard of before. Everybody thought it was terrible and kept after him Friday. They'd ask him where he got so and so's name and he'd say, "Oh did I give you that, I must have given you the wrong test." He had to look it up himself to see what it was because he didn't know himself what it was. It was an objective test (True + false, etc.) and one of the girls told him that she guessed the law of averages would take care of most of us, ha! If everybody makes a low grade it won't be so bad because they usually grade according to rank.

I got an M in our Current Affairs test last week Thurs. and was I mad. I thought it was so easy and I had spent so much time studying for it that I thought

It got an S easy. Mary and Aileen got an S and Aileen didn't even read the three chapters in our book, but she missed an M by one point. Helen and Katherine got an I. It doesn't hurt if you get an I in that because you get some amount of credit. Getting back to Hygiene we have a stretching exercise before the class dismisses and Friday we did some yell for the Basketball team, ha! That's what the class is like. I sure hope I get an M or I won't get an approved grade in it. Katherine and some others say he never gives anything lower than an M, but I don't know.

I might have a chance to get an S in Am. History. We have tests every other day and my average is about 84 (I got 100 one day). In Current Affairs 85 is an E but I don't know if Mr. Clure grades the same, but he is awfully liberal in his grading. Some kids that made around 30 all last quarter got an M. So I think I ought to get an S, at least I better so much time as I spend on the subject. Are having a test in Eng. this week and then we have to start making our own speeches. You write one for me, ha! I guess you're tired of reading this old junk so I'll write about something else now.

Don't scold, but Mrs Davis, Helen, Katherine, and I went to a show Friday afternoon. They talked me into it and it only cost me a dime (a double feature or that) and a clipping from our school paper. Saw Jane Withers in "High School" and Douglas Fairbanks Jr. in "Rulers of the Sea". They were good.

Went to a basketball game one night, they played Warrensburg and lost 28-30. It was the best basketball game I ever saw. Thursday night we saw three one-act plays at the Little Theater. They were good but it only lasted an hour.

Tuesday afternoon we have a school show at the Kennedy Theater. We will be admitted with our activity ticket and 10¢. We can see "Swanee River". That's a good picture, the life story of Stephen Foster. I want to go unless we have a lot to study.

I'm trying to write so fast you won't be able to read this. I owe Doris a letter from last week. I got a letter from Corinne and it was practically burned up. I don't know what happened to it.

The snowshoes I referred to were not what you said. Just high white shoes like you see in the catalogue.

I don't quite get it in that item about

Mr. + Mrs. Carl Davis, Am I supposed to know them  
or did you just send it because of the reference  
to Center, Mrs. Mary said it was probably their  
preacher's son. Aileen got the Warrenton Banner  
& a Hegginsville paper from her mother and I  
saw about the Lucille Meyer. I don't know her  
but heard of her. The Hegginsville paper has  
Napoleon news. You'll probably read my  
letter to Mom so I won't have to write every-  
thing twice.

I don't know exactly where Rebecca  
lives but she comes over and studies with Jo  
quite often. I never looked the other places up  
yet.

I quit the Basketball tournament because  
the other teams all practiced about 6 times and ours  
never did yet. Friday I saw several scratched  
their names off our team so I did too. I was a-  
fraid I wouldn't have time to play anyhow.

I don't know when the "Echo" comes  
off the press - Billen said "No they don't send  
valentines here".

There's still some sickness around  
but I don't hear about so much anymore. Kath-  
ine was sick with a sore throat yesterday and  
today but she feels better now.

I don't know of any more to write  
and is my pencil getting dull. Did you  
notice? Tell Neil not to "percolate"

too fast. Grow up in other ways. Be sure  
and teach him to say "Aunt Eunice." ha! ha!

I'll have to quit. It's about 4:30  
now. Katherine, Helen, and Dilcen are here in  
our room and we keep talking every few  
minutes.

(I think) The weather: It was 11 below  
this morning and also yesterday. It was some-  
where between 15 and 20 below, I think it was  
Thursday morning and it was 13 below that  
afternoon. Some walks on the campus have  
snow banks as high as my waist. Dilcen  
said Pat was out in the country yesterday  
and they dug through drifts higher than the  
car. I didn't finish taking pictures yet.  
I will some day. The sun shone all  
day today but the wind is cold.

So long

Love,

P.S. Write soon or rather as  
usual. Excuse the scribbling. Eunice
