

4-1-40

Sunday Night.

Dear Mildred,

I suppose you've been looking for a letter for some time. I'm almost dying in the summer heat of today. I had my butter sitting in the window and tonight it was completely melted. Mrs. Davis got a refrigerator this week & got us an ice box but if we have to buy ice all the time it'll be cheaper to eat out once a day & eat just a little for supper & breakfast. Josephine is so stingy & says she won't buy ice & if just a few of us buy it, it will be too expensive.

We went with Ma and Jo to the Baptist Sunday School this morning & after S.S. Katherine, Vera May Fidler, Evelyn Harlan, and I went to the Presbyterian church. It was real nice there too better than the Methodist anyway. This afternoon we walked around and did a little bit of everything. Mr. Davis & Mrs. Davis's sister & her husband were here today.

I saw "Gone With the Wind" Friday afternoon. Mrs. Davis, Katherine & I went together. It was real good but no better than I expected. The theater was only about half full but I think it was much more crowded Saturday.

Tuesday night Suzanne fixed up a blind date for me with an osteopath, ha! He was Lucian Jablonsky (Polish) from Toledo, Ohio. We went walking, John and

Suzanne were with us. He was real nice but rather talkative. He said he'd call me sometime but whether or not he will I don't know, ha!

Had a test in Current Affairs Thursday and I missed an E by 1 point! I got 70 and the highest score was 73. That's always my luck. Also had a test in Rural Education Friday. I didn't think it was so bad. We're going to have a test in Science this week and I really dread it.

Margaret O'Lina was here tonight and she is going to move in here again tomorrow. Her apartment was too far from school she said. Mrs. Link, who owns this house, might sell this place to a family who want to move in and then Mrs. Davis will have to move out. If she does I hope she gets a bigger house.

We won't have school Friday, at least so they tell me. Friday is Senior Day & all the H. S. seniors of Northeast Mo. visit the school. Is Harvey coming? ha!

I can't think of any more to write.

Our essembly program wasn't so bad. I'll see if I know any more in the morning.

Mon. morn. — Melvin got an attack of
of appendicitis last night and was
taken to the hospital. I don't know
when they'll operate yet.

Love,
Sis,
Cecilia
