Bill: We may need to place a later/second order for the Toilet for Bath 2 due to issues with a counter height shelf above it – or perhaps you could advise us. We need to make sure there is sufficient clearance for the toilet seat to stand up fully without falling down and the tank top to be removed easily when necessary. The shelf extends 9" from the wall and the bottom of the shelf is 30 5/16" from the floor.
