Lincoln and Integrity

LINCOLN and integrity were synonymous. His word, in small matters, or in great ones, stood firm. His was an inflexible conscience for the right, coupled with a great sympathetic human understanding. What a pattern he set for a person—for an institution.

Back To The Farm?

One of the leading citizens remarked to the Herald editor: "It has been several years now since there has been so many men inquiring for farm to rent; in fact," he said, "I have never seen a time in my life when so many men were inquiring for farms to rent." This is undoubtedly evidence that there is now a drift from the cities back to the farm.

Thousands of young farmers were lured to the cities following the war on account of high wages; and it is but natural that many of these young farmers would be the first to lose their jobs, and no doubt, they constitute a large part of the five million or more men now out of employment in this nation.

They know that on the rosted farm they get house and garden rent free, the privilege of keeping a milk cow or two; and this goes a long way on the living account. Out on the farm living conditions may not be as convenient as in the cities, nor do they have the glare and glamour of the white lights but they can have a comfortable living, and this is not what thousands of them are now getting in the larger cities, hence the drift back to the farms, and so many inquiries for farms to rent. —Armstrong, Mo., Herald.

Mother And Daughter Killed When Kitchen Stove Explodes

Mrs. Henry J. Strubberg, 46, and her daughter Mildred, 10, of Washington, Mo., were killed last week Thursday by an explosion which occurred when Mrs. Strubberg was lighting a fire in the kitchen stove and preparing to make breakfast. The father and eight children survive.

Back to Apples

The fellow who formerly sincerely believed that "an apple a day keeps the doctor away" has quit fooling with the apple and takes smallpox vaccination, antitoxin serum, antityphus, antitubercular, antiphiltharia, Keely's cure, and what have you—and dies twenty years younger than his grandparents did.—Glasgow Missourian.

Worry is the compound interest we pay on trouble before it comes due.

There are less than 200 zither players in the United States today. But we don't know what to do about it.—Milwaukee Journal.

The First of The Month

The first of the month is a period no one should shrink from because that is the time for paying the bills that are incurred during the month. Such fear is needless. A modest amount deposited to start an account, and a regular addition to it, steadily maintained, will act as an ample reserve against that avalanche of bills. This bank wants to serve you in any way it can.
