Heavy Snow Falls Blocks Highway

Saturday's Heavy Snow Falls Blocked Highway

A snow that fell from Saturday morning until Sunday morning over the entire Middle West caused the blocking of traffic in many places. A disagreeable east wind had been blowing for several days, and yesterday a misty rain began falling, which turned into sleet late in the day. The snow morning the sleet changed into snow and the downy flakes fell thick and fast. By Sunday morning sleet had fallen. The high morning which prevailed Saturday and Sunday caused the snow to drift, and by Saturday noon work was stopped that connects streets were forming on Highway 40 between New Florence and Williamsburg. By Saturday noon traffic began to slacken and by night the snow had stopped running. About twenty tourists spent the night in the garage on the "Y" and the management did everything to make their stay as pleasant as circumstances would permit.

He was highly esteemed by all who knew him because of his modesty, sincere, high sense of honor and ever-constant concern to do the right. He was a man of broad and noble sympathies, and his life was a noble example in the hearts of his friends.

A large and appreciative audience witnessed with much interest the performance of the little plays. Each one had his part to play in making the program a success—and he did.
