**"Family Of Eleven"**

**What To Do In An Air Raid**

(continued from page 1)  
 Blanks will do. If you have heavy black paper, paste it on your windows. Don't crowd or stampee stores to get it, however. You probably have everything you need at home. Be ingenious—improve.

Should you get an air raid warning, remember to shut off gas stoves, gas furnaces and gas pilot lights on both. Bomb explosions may blow them out. Gas that collects may be explosive later.

Prepare one room, the one with the least window-glass, in the strongest part of your house for a refuge room. Put food and drinking water in it. Put a sturdy table in it. Put mattresses and chairs in it. Take a magazine or two, and a deck of cards into it. Take things like eyeglasses and dentures with you when you go into it. Take toilet facilities, paper, a screen. If you have a portable radio, take that too. Above all, keep calm. Stay at home. Put out lights.

(This article will be completed in the Record next week.)
