High School Notes
The students received their report cards last week at the end of the second quarter. We have now started the second semester with a new determination.

The high school pupils have become more conscious. They have decided to do their part in the National Defense by gathering waste paper and automobile license plates. Tuesday has been set aside as the day these things are to be brought to school.

A party was given under the sponsorship of the social department Friday night. It was very well attended. The students and faculty gathered in the school auditorium and had an enjoyable time. Delicious refreshments were one of the highlights of the evening.

The school has been hard hit by the measles. Quite a few pupils are out of school because of this epidemic.

Friday, January 6, the faculty of the high school gave an assembly for the students. Each of the three teachers gave a short talk which the students found interesting and instructive. An assembly is given every Friday afternoon. Different classes and sponsors take turns arranging the programs.
