Under The Stars and Stripes

(continued from page 1)
boat race was over and we pulled into the wharf to be greeted by another large group of soldiers who wanted to make the lake trip.

Leaving the boat, our ears picked up the sound of music and to our surprise we saw the concert band of the 101st playing at the water's edge for the soldiers in this rest center. We listened to such tunes as "Lucky Old Sun," "Ain't Got No Home in That Town," "Swanee River," and many other well known tunes.

After the concert and quite a bit of photography over to see at my camera we questioned our thirst with several glasses of cold beer. We knew it was time to be leaving and we all turned for our last look at the lake as we passed up the street.

The return trip provided just as many beautiful scenes as we saw on the way up. We returned on a different route and we went merrily along on one of Germany's famous super highways. The trucks passed by the quaint type of mountain homes that are prevalent in the mountain regions of Germany. The people all wore Tyrolean costumes and they looked just as they had been pictured to us.

As the trucks wound top the crest of the hills, we would be met by breath-taking beautiful scenery. The rolling countryside dotted against the dark green pine trees and the massive mountains created a scene I'll never forget. The sun was going down behind the mountains and seemed to light up the clouds which settled atop the highest peaks.

As we sped along the high ways we passed thousands of German soldiers in their vehicles on their way to Munich to turn themselves in to the American military government.

There was no friendly Hello or hand-wave from us, because the Jerry's are still our enemy and we have seen too many of our buddies fall from their fire not more than six weeks ago.

The boys sang and talked and finally we headed back into our town. We were all tired and dusty but all agreed that the long ride was worth the trip.

Col. Ora Koelling has reported back for duty and is now stationed at Fort Sam Houston, Texas.

AUGUSTA
Mrs. August All spent Saturday in St. Louis visiting her daughter Miss Doris All.

Mr. and Mrs. Edna Huebner and son Gary were Sunday guests of Mrs. Dora Holt at cottage U-348 Sunday afternoon.

Mr. and Mrs. Frank Lieman and children of Peers were in town Saturday.

Mr. and Mrs. Wm. Schmidt of Warrenton spent Tuesday in Marthasville.

Edwin Poesel of near Duto was in town on business Monday.

Miss Elsie Ahmann of St. Louis is visiting Marthasville relatives several days last week.

Mr. and Mrs. Albert Ruching of Defiance visited Wednesday with Mrs. Lydia Lageman and daughter Vera.

Mr. and Mrs. Ray Jaerling and son Wayne of St. Louis are spending the week with relatives at Marthasville.

Mrs. Alice Pick of Washington visited Tuesday and Wednesday with her sister, Mrs. H. F. Ploeger and family.

Florence Muttet who has employment at the pipe factory in Washington is on a vacation this week.

Mr. and Mrs. Wm. Backhaus and daughter Marie and Mrs. Oliver Backhaus of Augusta visited in Marthasville Wednesday. Miss Backhaus is on a vacation from her course of instruction in nursing at Duquesne Hospital at Marshalltown, Iowa. She has seven more weeks of schooling before completing her training.

Mr. and Mrs. Walter Mallin and daughter Marie and Mrs. Charles Bode and son Gary were Sunday guests of Mr. and Mrs. Fred Bode and family.

Mrs. Meta George and son Milton and Lester Nienhuser returned to St. Louis Sunday evening after enjoying a week's vacation with relatives and friends here.

Mr. and Mrs. Oscar Brakenick and son David and Mrs. Johanna Brakenick visited Sunday with Mr. and Mrs. Albert Strattman.

Tire Dealers Must Register
"All tire dealers, even those who have previously registered, must register with the OPA between July 1 and July 10," said the St. Louis office this week.

As the trucks wound top the crest of the hills, we would be met by breath-taking beautiful scenery. The rolling countryside dotted against the dark green pine trees and the massive mountains created a scene I'll never forget.

The Army, willing to release 1,400,000 men from service, is expected to reduce the points necessary to discharge a service man from 85 to 78 or 80 points within the next few weeks.

Sixty-six years ago a man was born in Georgia, I.S.N.S., and studied until he was 29 to be a priest. His name was Joseph Vissarionovich Ivanovich David Nijerodze Chonloy Dyanghvili. We know him today as Joseph Stalin, which in English would be "Joseph Steel."

Will Inspect Food Lockers
All frozen food locker plants in western Missouri will be inspected by OPA agents, it was announced Wednesday. The investigations are to check for possible hoarding of meat and other food. An official said: "I wouldn't permit illegal hoarding in wartime, and I would know if any of the locker patrons were up to that sort of thing."

Col. Ora Koelling has reported back for duty and is now stationed at Fort Sam Houston, Texas.

Arkansas and Mississippi both can have splendid public schools without accepting financial aid from anywhere. I am prepared to prove this statement with figures I present early in May to the Education Committee of the House of Representatives in Washington. Moreover, these states can do well without help, any of the other states can do likewise. Federal aid is not needed anywhere.

There is a Reason
Poor these two are on a basis of income per capita, each of these states are lowest on the federal government. Our national debt probably will reach 300 billion dollars before the year ends.

There is one community in Arkansas which, although it has only 33 students all told, it made up of six school districts and thus uses six busses to take the 25 students to school and back each day.

Can Corn Fresh and a Little At a Time for Good Results

Corn is a stumbling block for many an otherwise successful home canner. For some it spoils; for others it turns brown and has poor flavor.

Glady's Kimbrough, Home Service Director for Ball Brothers Company, gives you company with her own experience. She says that the general public to avoid practices and procedures which give satisfactory results.

If you have never canned corn but want to this season because of rationing, or if you have tried and failed, you may profit by following Miss Kimbrough's advice. In an informal discussion of the subject she said, "Sweet corn, particularly the deep yellow, is rich in flavor and food value, but field corn cans as well, keep as well, as the garden varieties and is the preference of many persons who could, if they chose, grow a patch of sweet corn for table use. So, take your choice but don't pay your money unless you know that it is at the most perfect stage for table use. At this stage the kernels are plump, shiny and all but bursting with milk-like juice."

Can Corn Early
As corn matures, the milk gives way to a substance called dextrin. Then people say the corn is too hard and they say right because it is hard to keep it by canning once it has passed from the full milk to the dough stage.

Bacteria, particularly those which cause flat corn, live in corn. This is one big reason why it doesn't pay to canner, prepare, and can corn. This is "wagon load" flavor is another good reason. Flavor is another good reason. Flavor is another good reason.

It is a waste of time, energy, and food to put anything in a jar which can't be sealed airtight. The smallest nick or crack can cause trouble. Smart home canners take time to examine the sealing surface of every jar and lid. Jars, caps, glass lids and cappers should be washed in warm soapy water, rinsed, covered with warm water and left to drain. Do not touch about canning. Use jars, caps, and lids, should be boiled 20 to 30 minutes. New cans need only be brought to boiling and left hot.

Any jar, cap, lid, and rubber washer which is worn, since by the manufacturer's instructions. Such instructions are given on a circular pocket with the jars and printed on the cap carton. Two sharp knives are needed—one

The danger of spoilage is far less when whole kernels are used. Cream style is made by slicing the tips of the kernels and then scraping out the pulp. It is fully to cream style unless you have a steam pressure cooker with an accurate gauge.

Put the jars are best for any kind of corn and practically a must for cream style because heat passes through corn slowly.

It doesn't do to let corn wait its turn in the canner. If you happen to have some left over because of faulty judgment in estimating the amount needed to fill the jars, put it in the refrigerator to keep cool until the next batch can go into the canner.

Adding Water Essential
Be sure to add one and one-quarter cup boiling water to each four cups of whole kernel corn and two cups of boiling water to each four of cream style. The water is needed to help the heat get through the corn in a hurry and to prevent the corn turning brown.

That brown, under-overcooked flavor you dislike is caused by caramelization of the corn sugar. This doesn't happen when the corn is young and juicy, enough water is used, and the pressure is kept down at the right temperature.

Most persons like about one-half teaspoon of salt to each pint of corn. A little sugar won't hurt anything, nor will it hurt if you forget the salt. The amount used is too small to help prevent spoilage.

Some persons manage to can corn by processing it three and a half to four hours in a hot-water bath canner but it is far better to use a steam pressure cooker provided it is in the right working order and worked right. "That last 'right'" means: Follow the manufacturer's instructions!
